**Group of Negotiations on Services**

**OVERVIEW OF REFERENCES TO CERTAIN TOPICS  
IN GOVERNMENT SUBMISSIONS AND THE SUMMARY RECORDS  
ACCORDING TO THE FIVE ELEMENTS**

**Note by the Secretariat**

**Revision**

The Secretariat has prepared the attached updated and expanded note providing under each of the five elements to be discussed a reference to the parts of (a) the various communications and proposals by governments and (b) the summary records of GNS discussions which are relevant for that element. Those topics of communications and proposals dealing with matters not covered by the five elements, e.g. procedural, institutional matters, are listed under a separate heading "Other". Regarding the summary records, discussions which did not formally take place under one of the five agenda elements but in the context of national submissions, and which touched upon one or more of the elements, have been listed under a separate heading "Discussion of submissions/Other matters". This overview is complete in the sense that all substantive points of both government submissions and the summary records have been covered.

The updated overview is the responsibility of the Secretariat which stands ready to adjust the list regularly on the basis of suggestions for additions, deletions or corrections.

A. Overview of references to certain topics in government submissions according to the five elements
