Negotiating Group on Tropical Products

TROPICAL PRODUCTS

List of Contributions by the Republic of Korea

The following communication dated 17 July 1989 has been received from the delegation of the Republic of Korea with the request that it be circulated to all participants. The communication contains the contributions of the Republic of Korea on tropical products.

The Republic of Korea hereby submits its contribution lists for the liberalization of tropical product trade in accordance with the main purposes of the Ministerial Declaration of Punta del Este.

The Republic of Korea recognizes the importance of the tropical product trade to the economic development of a large number of developing countries. Negotiations on this trade should progress without any delay.

These autonomous contributions consist of two parts. In the first part, tariff rates of 238 items, which account for 90.5 per cent of the total of 263 tropical products of import based on HS 6-digit, have already been reduced as of 1 January 1989, and will continue to be reduced further until 1993, in accordance with the attached schedule. At this juncture, it should be noted that this reduction schedule is based on general and statutory tariff rates of the Korean Tariff Law. Therefore, the reduction schedule should not be prejudged to be bound.

In the second part are included some schedules concerning the elimination of import licensing measures through 1991.

It is to be emphasized that these contributions, made voluntarily by Korea, should be recognized as the maximum measures in view of Korea's present level of economic development and her difficulties confronted in the agricultural sector.

Nevertheless, with a view to achieving greater liberalization of trade in tropical products, Korea will continue to actively participate in the ongoing negotiations.
