TROPICAL PRODUCTS
List of Contributions by Yugoslavia

The following communication dated 21 August 1989 has been received from the delegation of Yugoslavia with the request that it be circulated to all participants. The communication contains the autonomous contributions of Yugoslavia on tropical products.

The Permanent Mission of the Socialist Federal Republic of Yugoslavia to the United Nations Office and Other International Organizations in Geneva presents its compliments to the GATT secretariat, and has the honour to forward the list of Yugoslav autonomous contributions to the liberalization of trade in tropical products, in accordance with the objectives established by the Ministerial Declaration of Punta del Este.

The liberalization consists in the elimination of the régime of so-called conditionally liberalized imports (LBO) for a wide range of tropical products. In addition imports of several products previously subject to quantitative restrictions (Q) or licensing (L) have also been liberalized (LB) while some products have been transferred from the régime of import licence into the category of conditionally liberalized imports. The liberalization also covered a great number of products of interest to the least-developed among developing countries.

The above-mentioned changes entered into force in the first half of 1989 as notified in document L/6486 and its addenda.

In addition the attached list of products encompasses the tariff positions liberalized in May 1988, which, in the opinion of the Yugoslav Government should also be recognized as an action towards the achievement of the Uruguay Round objectives.

The symbols of the import régime for the products liberalized in 1988 are marked with an asterisk (*).

E X P L A N A T O R Y

N O T E S

- LB - Liberalized imports
- LBO - Conditionally liberalized imports - represents liberalized import but within the possible volume of payments, which is adjusted to the volume of import envisaged by the balance-of-payments of Yugoslavia. The extent of the possible volume of payments for conditionally liberalized imports is calculated on the basis of the effected imports of goods (except for import of equipment, import based on long-term production ventures, import based on investments by foreign persons in domestic organizations of associated labour) and invisible payments of every entity in the previous year. It is subject to revision depending on the export activity of every entity, on the basis of its quarterly performance.
- I - Import licence
- Q - Quota
- S - Prior approval of the Federal Secretariat for Economic Relations the aim of which is to promote import from developing countries by direct purchase of products originated in those countries.
- * - Liberalization entered into force in May 1988.
