COMMUNICATION FROM SWEDEN

The following communication has been received from the delegation of Sweden on 25 January 1990 with the request that it be circulated to participants of the Surveillance Body.

Referring to the question addressed to Sweden by Australia at the last meeting with the Surveillance Body I have been instructed to inform you that on 1 July 1989, the effective import levy applying to imports of sheepmeat (cuts) was reduced by SEK 1.10 per kg. (SEK 0.45 thereof was a nominal reduction, SEK 0.65 was due to an increase in the wholesale price, which in turn followed from an increase in the relevant target price).

On 21 December 1989, the Swedish Government decided on yet another reduction of the import levy on sheepmeat, by SEK 0.55 per kg., effective from 1 January 1990.
