**Organized by India, Indonesia, and South Africa**

**16 June 2023 11:15-12:45 CET**

The event will be held on YouTube only

**Abstract:**

Sustainable Forest Management has emerged as a key concern in the international debates and discussions. WTO members are also working on their policies in this space. Different WTO members employ different approaches for addressing this global focus area. This session brings together views from the developing countries on how a holistic, economy-wide approach is being taken in national strategies to maintain forest cover.
